B. - postgraduate studies, research (3-21 days or 1-10 months)

Can be applied for by: applicants holding a Master’s degree or an equivalent university degree, including PhD students who intend to do research for their dissertation, yet wish to stay in Hungary for less than 12 months. (However, PhD students cannot acquire credits at their host universities.)

Only students proficient in Hungarian can apply², the scholarship is conditional upon successful entrance exam / admission to the respective doctoral school.

GENERAL PROVISIONS

These scholarships allow for study or research in any field of arts and sciences during the granted period at an accredited Hungarian higher education or research institution to be determined in advance.

Semester, partial, postgraduate studies and doctoral programmes must be carried out in state-financed institutions where no tuition fee is required. For Type A scholarship, an applicant may submit an application only on one occasion during his/her BA studies, and on another occasion during his/her MA studies.

¹ Applicants can apply for all scholarship types in the “scholarship pool” system. The scholarships offered in the bilateral agreements announced by the foreign partners are also categorized according to these scholarship types. In some cases the co-operation programme/bilateral agreement does not contain all the scholarships listed under the pool programme, hence they may not figure among the scholarships announced by the partner office. For citizens of countries that have a bilateral agreement and a partner scholarship office it is recommended to submit their applications directly to HSB, in the pool system, in case the bilateral agreement does not allow for a specific type of scholarship listed in the pool programme.

² Applicants are exempt who gained admission to a tuition-free program at an institution of higher education (state-financed university, full-time program), where the working language is different from Hungarian.

Type A (semester /partial studies) and type C1/C2 (full PhD and partial PhD studies) scholarships may not be extended. Type B (postgraduate studies), D (postdoctoral studies, research), and E (research stay) scholarships may be extended exceptionally, only under special circumstances, on one occasion. The scholarships are valid only for studies and research purposes in Hungary. HSB scholarships can only be used for conducting studies or research in Hungary, which means that scholarship-holders must stay in Hungary during the whole period of their studies or research.
